

# Ashford School News and Happenings

A Note from Troy Hopkins, Principal

The after school activity program at Ashford School offers students in grades 3-8, a variety of enriching experiences. In addition to the activities pictured below, we also offer the following: Fun with Yarn (knitting, crochet, loom), The Kitchen Table (a homework club), Gamers United! (board games, puzzles and problem solving), and The Creative Crafters Club (crafting using a variety of materials and styles). We appreciate our staff members who are willing to share a passion with students, and we are thankful for the support of the Board of Education and the citizens of Ashford for the opportunity to offer these meaningful learning opportunities to our students. We hope to see parents and community members at some of our up-coming events!

R.C Builders Club is rebuilding existing club cars, replacing any parts as needed, engineering upgrades as possible and building new car kits. This club welcomes new builders along with experienced builders that act as mentors.

Ashford School News Broadcast Club were students can express their passion for technology and share the latest and greatest Ashford School news.

Incredible Edibles Club is whipping up all new recipes this year. Students are learning about healthy eating and making a variety of delicious dishes that feature fruits and vegetables as the main ingredients.
